Mr. Yerkes Stands for Assassination.

The following is an extract from Gov. Beckham's speech, delivered at Litchfield, on the 10th inst.:
"My distinguished opponent, Mr. Yerkes, can not escape responsibility for the platform he stands on. He can not divert the public mind from the real issue and concentrate it on the election law. Why, at Bowling Green he stood on a platform with a picture of a fugitive from justice on his right hand and Holland Whitaker, under indictment for conspiracy to assassinate, on his left."
"He'd make a nice Governor, wouldn't he?" called a Democrat derisively.

"If you read Yerkes' speech you will see he says the Democrats hold the Republican party responsible for the assassination of Gov. Goebel. He says the Republicans might as well have held the Democratic party responsible for the assassination of Gov. Goebel. Four years ago Yerkes and others went upon the State, making Taylor's defeat almost the only issue, and at the same time demanding a look at the books. It is within the memory of the youngest voter here that the Democrats told him they could not apprehend Tate and bring him back to face the charges against him. He found it necessary to go further than Taylor to escape his accusers. Did you hear of any Democratic platform indorsing that defeat? Did you hear of any Democratic platform indorsing that defeat? Did you hear of any Democratic platform indorsing that defeat?"

That party, or its representatives, has done everything within its power to shield and protect those who stood accused and indicted for the assassination of Gov. Goebel. That party, or its representatives, has done everything within its power to shield and protect those who stood accused and indicted for the assassination of Gov. Goebel. That party, or its representatives, has done everything within its power to shield and protect those who stood accused and indicted for the assassination of Gov. Goebel.

Gov. Beckham then reviewed the doings of the army of intimidation, "an arsenal with guns and pistols like a madman," the action of the Legislature, charged about the streets like cattle, the verdicts of the courts, the Court of Appeals and Court of last resort, all tending in favor of the Democratic contention. As he proceeded his remarks were punctuated by "Hurrah for Beckham," "Hill 'em again, Beckham," "Hurrah for our young Governor," "Stick to 'em, Governor." "Do you want a repetition of Republican misrule?" he asked.

"No, no; we don't. We've had enough of that," came from all parts of the hall.
"The Republicans said they wanted a look at the books. They looked at the books, but they didn't find a single Republican account. We have had a look at the books ourselves. We have a list of names of those who stole from the State. We have a list of names of those who stole from the State. We have a list of names of those who stole from the State."

A WOMAN OF COURAGE.
OF DIABOLIC.
A PROMINENT MAN, ED.
Had Almost Given Up. But Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.
READ HIS EDITORIAL.
From the Times, Littlefield, Va.
I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noting the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man to-day and feel as well as I ever did in my life. "Like a Beast of the Field."

Caleb Powers kicks on a muss and a fuss because he was handcuffed when transferred from the Georgetown to the Louisville jail. Caleb howls, "I want you to say that you found me handcuffed like a beast of the field. This, too, after I told my guard that I would give them my word that I would make no attempt to escape."

Just how a beast of the field is handcuffed is an unsolved mystery ranking alongside the assassination of Governor Goebel. In the fact, a handcuffed beast of the field would be a considerable circus.
Why should Caleb Powers object to handcuffs? He is a convicted assassin. Why should he not be treated as any other felon convicted of a capital crime? When he was indicted as an accessory before the fact to the assassination of Governor Goebel, he disguised and armed himself and attempted to escape. When he was captured after a desperate resistance, a pardon from W. S. Taylor was found in his pocket. He was arranged in a court of justice, tried and convicted of an offense, the most infamous of all save one, in the whole calendar of crimes. He was transferred to the Louisville jail to prevent either escape or rescue. He was treated exactly as any other criminal would have been treated—no worse nor better. He was not entitled to any special privileges for the assassination of Governor Goebel, and he did not receive them.

Why should Caleb Powers not be handcuffed "like a beast of the field?"—Glasgow Times.
An Answer.
No better reply to Mr. McKinley's letter can be found than the attitude of a former adherent of the President. That the Maryland campaign should have opened with United States Senator Wellington, until recently the acknowledged leader of Maryland Republicanism, enlisted on the Democratic side is significant of a change of sentiment in that State which should produce some startling surprises at the polls. The opposition to imperialism which has led Senator Wellington to forsake his high rank in the Republican party is shared, it is safe to assert, by many other Republicans in that State.

The double dealing by which Mr. McKinley tricked Senator Wellington into casting the deciding vote for the Paris treaty, giving a promise of just dealing with the Philippines which was afterwards deliberately broken, will be resented by that eminent American friend and follower as it is by Senator Wellington himself.
As Mr. Bryan pointed out in his address at the opening of the Maryland campaign in Cumberland, following Senator Wellington's own speech renouncing his allegiance to McKinley Republicanism, the Maryland leader takes a pretty good stand. It is not for money that he enlists under the Democratic standard. It is not for honors—his own party in its nobler days had satisfied his ambitions in that direction. "It is his belief," said Mr. Bryan, "that this country is in peril; it is his belief that the course which is being pursued by the present administration is leading to disaster; it is his belief that the course which is being pursued by the present administration is leading to disaster; it is his belief that the course which is being pursued by the present administration is leading to disaster."

When leaders in a decadent party are thus seen abandoning that party because they cannot follow its policy, it is safe to believe that the party is in a state of decay. It is not for money that he enlists under the Democratic standard. It is not for honors—his own party in its nobler days had satisfied his ambitions in that direction. "It is his belief," said Mr. Bryan, "that this country is in peril; it is his belief that the course which is being pursued by the present administration is leading to disaster; it is his belief that the course which is being pursued by the present administration is leading to disaster; it is his belief that the course which is being pursued by the present administration is leading to disaster."

MILITARY DICTATORSHIP.

(Courier-Journal.)

No amount of talk about civil liberty can disguise or obscure the fact that Wm. S. Taylor, both before and after he had been lawfully deposed as Governor, converted the Government of Kentucky into a military dictatorship, so far as his authority reached, and suspended the operation of the laws. He did this by the aid of desperadoes from the mountains and of militia used in an unlawful manner.

It has always been the resource of tyrants to resort to force when the laws do not please them. Military power, in constitutional government, has often been resorted to in order to carry out purposes which the law does not sanction. Parliaments and Legislatures have been dispersed by armed force, but never without producing a profound sensation and evoking the gravest protests. The entrance of the United States troops into the hall of the Louisiana Legislature caused a profound sensation throughout the Union. For reasons of this sort the power of the Executive over troops is an everywhere limited, except in despotic countries. In Great Britain Parliament holds the purse and makes appropriations for the army only for a limited period. The same is true in the United States, and with it is coupled the policy of a small standing army in time of peace.

It was not by accident that the provision was put into our Constitution that the Governor should not command the militia in the field except by the request of the Legislature. Nor was it by accident that our laws provided that when the Governor called on the militia they must be made subject to the orders of a Mayor of a city, Sheriff or Jailer of a county, or Marshal. Such a provision was necessary to make the military subordinate to the civil power. With like intent, it was provided that the assent and recommendation of a County Judge should be necessary to the organization of a company of militia in any county. That rebel troops might not be re-organized under the name of independent bands of armed men, the law further provided that no body of armed men other than the State Guard and United States Troops should parade in arms without a license from the Governor.

Every one of these provisions, intended as monuments of liberty, was violated by W. S. Taylor and his predecessor. The story how this was done has been often told. That it did not create a wave of indignation all over the country was due to the industrial campaign of misrepresentation and outrageous falsehood that had been carried on for months. Even as it was it elicited words of disapprobation from the better class of Republican newspapers in the North. Here at home, the Republicans and their allies stood by Taylor, and when Goebel was killed, they excused themselves by saying: "What else could we do?" It did not seem to occur to them that they might obey the law instead of breaking them every day. They yielded only when they could no longer hold out, and then Taylor fled to Indiana. Since then a number of Republican Governors are reported to have conspired to pullify the laws of Kentucky and the Constitution and laws of the United States by giving protection to a man indicted for murder.

All these things were well-known to the Republicans of Kentucky when they met in the State Convention. Yet they congratulated the "Union party" on the efforts of "Gov. Taylor," well-known made by "the Constitution," in violation of "the principles of civil liberty which have been cherished for centuries. Him," the employment of military forces, in time of peace to aid the civil authorities, and withdrawing the command of them from the Chief Executive lest he might use them in derogation of the liberties of the people. of Taylor the Republicans of Kentucky have indorsed lawless military rule in this State, and by consequence the assassination of Governor Goebel which resulted from it. This is not the road to civil liberty, but to military dictatorship.

As usually treated a sprain will disable the injured person for three or four weeks, but if Chamberlain's Pain Balm is freely applied a complete cure may be effected in a very few days. Pain Balm also cures rheumatism, cuts, bruises and burns. For sale by M. Craven.

Marshals at the Polls.

The statement has been made within the past few days, says a dispatch from Washington, by an official at the national committee that a sufficient number of United States deputy marshals will be distributed over the State of Kentucky at the various polling places to prevent any intimidation of voters, and to see that the ballots are counted as they were cast.

Senator Joe C. S. Blackburn says he has been aware of the plan for some time, and characterizes it as an attempt to steal the electoral vote of Kentucky. The State being naturally Democratic, according to his view, and the election law about to be enacted being manifestly fair and impartial, there can be no other interpretation than that it is to be a case of steal.

He asserts that he has warned the Democrats of the designs of the Republican committee and that he will return to Kentucky in a few days in order to be present at the opening of the campaign, so that the Democrats will be certain to take steps to exploit thoroughly the danger impending. According to Senator Blackburn the Democrats of West Virginia, Maryland and Missouri will have a similar condition to face. He points to the fact that the congressional elections will be held incidentally with the general election, which makes the plan of the Republican managers possible and feasible. The Democrats will resist and fight to the last ditch, he says, any attempt to steal the election, and so far as Kentucky is concerned no one need fear the presence of United States marshals on election day, as their presence will be fully shown up by November 6.

As soon as the American people formally indorse imperialism in the Philippines the McKinley administration of Empire will adopt a policy of imperialism in China.

The Galveston Horror.

The following is taken from last Wednesday's Courier-Journal:

The Relief Committee at Galveston estimates the number of dead at 3,000. Major Jones' personal estimate is 1,000. Ten thousand people are sheltered and utterly destitute. The work of clearing up the city has begun. Extortion, practiced at first, has been met by force, and the militia, now in control, is compelling men to work at the clearing out of the bayonet. Dead are being carried out to sea and dumped into the Gulf. Where that is impossible the dead are buried where found. Ghoulies were at work before the militia took control, and many of the corpses were robbed. The most urgent needs are water to drink, lime to allay pestilence and candles, lamps and kerosene, for the ruined city is without light and water. After that must come provisions and clothing, and then money. The response of the people of the United States has been prompt and generous. From Houston trains are sent away with water and supplies most urgently needed. From large cities all over the country are starting special trains with food and supplies, while from every quarter money is being sent to Gov. Sargent and to the Citizens' Committee. Relief is also needed at fifty smaller towns in Southern Texas, but the destination at these places is as nothing compared to that at Galveston.

Crop Report.

Louisville, Ky., Sept. 11.—Excessive high temperature continued during the week, with almost constant sunshine and very little rain. Light scattered showers occurred throughout the State on Tuesday, but little or no rain fell on any other day.

The bulk of the corn crop is about being cut and is in progress. The injury to the late planted corn from drought in the western section and some portions of the central section is more apparent than last week; the damage is considerable. However, a good crop will be harvested from the other portions of the State.

Tobacco cutting, curing and housing have been carried on under very favorable conditions, and most of the crop is now housed. A considerable amount of tobacco ripened prematurely or was "fired," and, therefore, will be rather poor in quality; this trouble, however, is confined principally to the western section.

Plowing for wheat has been about stopped until rain falls. In consequence of the dry weather, there will be more corn land sown in wheat than was expected. Pastures need rain in all sections and are nearly ruined in the western section, where stock water, also, is becoming scarce.

In the eastern section a good lot of millet has been saved.

Wonderful Elixir.

Cures cholera, diarrhoea, colic, cramps, lameness, sprains, lumbago, swellings, pains in the head or body, neuralgia, rheumatism and toothache, all pain internal or external cured quicker with Morley's Wonderful Elixir than any other remedy. Free trial bottles at W. M. Bell's, Joppa, Ky.

Hon. William J. Stone, of Missouri, is a man of distinguished ability, a statesman and a politician, and personally a delightful gentleman. He has been Governor of his state, and is a leading member of the Democratic National Committee. He is a commanding leader, and has greater things in store for him if his admirable health continues. Altogether he is a man of such dignity and consequence that it is doubtful if he should be asked to engage in a dine-museum debate with a cross-roads Administration in Ohio.

Look Jack.

Ed. H. Hardin, Chiles Springs, Tex., says: "One large dose of Morley's Wonderful Elixir cured my case of lock-jaw. It was a wonderful cure and saved me a \$650.00 animal." Free trial bottles at W. M. Bell's, Joppa, Ky.

The Administration wants to avoid the almost imperative necessity of taking Teddy Roosevelt off the Republican national ticket. He seems to have been instructed to moderate his pro-techniques, and when he tries to come forward as the pettifogger, his speeches are almost inane. If Teddy is to stay on the ticket, he should fix it up so as to have so much business as Governor of New York that he will not have time to run about the country stamping.

L. Hardesty & Son, Mt. Eden, Ky., say: "We consider Morley's Tonic Chilly Syrup the best we ever sold. We sold 40 bottles of it in this month and not a failure in the lot. In fact, when our doctors find a case hard to cure, they send us for Morley's Tonic Chilly Syrup and it never fails to cure." Sold by W. M. Bell, Joppa, Ky.

Did Alexander Hamilton ever look forward one hundred years for the realization of his ideas of government for the United States of America? Did he think it would take so long to introduce the English system, which he looked upon as the best for a republic or any other form of government? The radical followers of Alexander Hamilton of to-day repudiate government in such a way in name, but require.

"We have never had the least doubt of the authorship of your editorials—they are about your size. But do you think we are inferior to you in point of learning or ability? Why, then, do you think that our articles are written by some one else?"

The above closes an article in last week's issue of The Columbia Spectator, directed at the editor of The News. Mr. W. D. Jones is the reputed editor of said Spectator and for the last few issues of that paper its editorial columns have been working in opposition to our position in the Powers case.

Last Friday, however, Mr. Jones, the editor, called at the News office and left word, to be delivered to us, that he was not the author of the articles; that they were written in his absence; that he did not endorse newspaper controversy in but one way—a pleasant discussion of the issues. This is as we believed. We did not believe that Mr. Jones was doing the editorial act, but the articles came as editorials—the product of his own brain, and we were compelled to hold him accountable. Mr. Jones stands high in educational circles; he is our present Superintendent of public schools, and therefore we believed him capable of better articles. Since the last article in the Spectator stands without father or mother we have no more to say, as the orphan is a subject of pity.

Mr. Bryan will speak in Louisville the night of the 6th of October.

Jim Howard, charged with assassinating Gov. Guebel is now on trial at Frankfort.

An old time Democratic barbershop will be given at Bardonia Saturday, October 6.

Hon Vincent Berry failed to preach his "Civil Liberty" here Monday. What a pity.

Saturday's Courier-Journal reported that 2,701 of the Galveston dead had been identified, and that the number of victims will reach five thousand.

Last Friday night from eight to nine thousand people heard Gov. Beckham and Congressman Wheeler at Bowling Green. It was the largest political meeting ever held in the Third district.

There are now one dozen national tickets in the field. About one-half dozen of the tickets are supported only by the men who are on the ticket, hence they will certainly be lost in the fog.

Golden Rule Jones, who polled 107 votes in Ohio last year as an independent candidate for Governor, has come out for Bryan. Mr. Jones is now the Mayor of Toledo, and has a strong following in Ohio.

It is said that Jim Howard holds a pardon, dated the 30th day of January, the very day that Mr. Guebel was shot, which shows conclusively that Taylor was the chief conspirator of the whole gang of murderers.

The city of Louisville, always ready to lend a helping hand to suffering humanity, gave \$10,000 to the Galveston destitute. Besides the gift of the city private subscriptions to the amount of several hundred dollars were sent.

Mr. Bryan opened the Ohio Democratic campaign at Columbus last Friday night. Fifteen thousand people heard him. It is said that at the opening of the Republican campaign the week before, by Mark Hanna, not more than three thousand were present.

Hon. John Rhea states positively that an attempt was made to assassinate him as he was leaving Morgantown one evening last week. The atmosphere in Butler county is congenial to ruffianism. It is the home of Holland Whittaker and the late abiding place of W. S. Taylor, who is now sheltering under the wings of Mount, the braying animal of Indiana.

The most successful way to conduct a canvass is to keep in the saddle, day and night, fearing defeat all the time. Candidates who run like defeat is staring them in the face generally get to the pole first. It is the over sanguine that invariably gets left. In the present canvass to reduce the Republican majority in the Eleventh district every Democrat should be a worker in the field, and by so doing the full strength of the party will be gotten out.

It is confidently believed that Mr. Cleveland will write a letter during the month of October, stating that he is opposed to imperialism and that he will support Mr. Bryan for the President. A majority of his late cabinet have already stated that they would support the Democratic National ticket, and a letter from Mr. Cleveland has not much weight. Mr. Carlisle has not yet written a letter, but he has stated that he is opposed to Mr. McKinley.

Last Monday Hon. John W. Lewis, of Springfield, made a speech in this town in defense of "Civil Liberty." We did not hear his entire speech, but judging from what we did hear we feel safe in saying that the Republican party is no stronger and not a whit wiser by reason of said speech. He was introduced by Hon. H. C. Baker, a late addition to "Civil Liberty." Mr. Lewis is well-known in Congress and in this section, hence a lengthy statement of what he said is unnecessary.

Mr. W. P. Walton, editor of the Interior Journal, Staunton, will be the editor-in-chief of the new Democratic daily which starts at Lexington in a few days. He is a splendid writer, a gentleman of deep learning, and a Democrat in whom there is no guile. The company could not have done better for the head of the editorial department. There will be no change in the management of the Interior Journal. Mr. Ed Walton keeping up the brightness of its pages during the absence of his brother. We hope the new daily in making up its exchange list will remember The Adair County News.

The Republican county papers are sending out supplements furnished by their State Campaign Committee in order to enlighten the voter on the great question of expansion and to show reason why he should approve the present game of conquest by furnishing a map of the United States, which shows that the entire country west of the Mississippi was acquired through the efforts of the Democratic Administrations at various times, part by conquest and part by purchase, also the acquisition of Florida and the Gulf country. We cannot see a better argument in favor of our side of the present muddle than that outlined in their map. We cannot see why intelligent men would put out such an argument to sustain the acts of the present administration but wise men make mistakes as well as those who possess less wisdom. The map merely shows that such time the Democrats acquired territory that it was an addition to the States, that it was not 6,000 miles away from home but adjacent to and apart of this country fashioned for our people. It shows that all the above mentioned territory was secured by Democratic administrations, if true, then who made this government what it is? The Democrats believe in expansion but not imperialism, they believe in securing desirable territory to become the homes of their own people but they do not endorse the acquisition of foreign lands and enslaving their people. They believe that the constitution should go with the flag.

We were directed last week, by the Democratic Campaign Committee, to announce that Hon. T. W. Simms would address the voters of Adair on Monday, but Mr. Simms failed to appear. We do not wish to disappoint hundreds of Democrats through the News in such a manner, and the Campaign Committee should not impose upon us by asking such announcements made unless it is known the appointments will be filled. If the Committee wishes to ignore this section it can do so, but every true Democrat will do his duty just the same. It doesn't require the spell-binders to put determination or Democracy into our people. We have it already, but a few good speeches would be enjoyable.

Hon. Jas. B. McCreary, Chairman of the Democratic Campaign Committee, met Mr. Bryan in Chicago last week, and learned from that gentleman that he would make a number of speeches in Kentucky during the month of October. No definite time for Mr. Bryan's coming has been arranged, but it will be between the 10th and 15th of the month. Other national speakers who will visit Kentucky are Mr. Stevenson, Congressman Bailey, Congressman Champ Clark, Hon. Chas. A. Towne, Gov. Benton McMillin, Congressman DeArmond, Senator Hill and Hon. Bourke Cockran.

Ex-Gov. Campbell, of Ohio, who enjoys the reputation of a close and conservative political observer, is in Washington. When asked his opinion of the situation he said: "The Democrats are now making steady gains. They are gaining strength every day in New York, in Ohio, in Indiana—in fact all over the country. If the election occurred to-day the Democratic vote would be larger than it would have been yesterday. This far, I think there has not been a day when we were stronger than the day before. Such a condition surely promises well for success."

T. W. Simms, of Springfield, addressed a full court room of Green county citizens, at this place, last Monday. Mr. Simms is a good speaker, and showed the Administration up in a bad light, and why it should be condemned by the American people. J. W. Lewis, in same place, spoke in behalf of the Republican party after Mr. Simms had finished. The Democratic committee asked for a joint discussion but the Republicans refused. Mr. Lewis knows Mr. Simms at home, and Mr. Lewis knows, very well why he declined a joint discussion.

The Campaign Committee of this county is organizing the county into Bryan & Beckham clubs and in a few days every club district in the county will have a working club. The party in this county is better organized even now than it has been for years in a presidential campaign. The Brown element almost to a man will support the entire ticket this fall.

The last letter by Ed. Z. T. Williams, published in the News, indicated that another one would follow from Paris to Montpelier, Kentucky, and doubtless many of our readers have been expecting it. It was a quiet trip home, and should another article be written, we could not contain any interesting features that have not already been published.

Robbed The Grave.

A startling incident, is narrated by John Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only one guaranteed at T. E. Paul's drug store.

United Americans.

It is becoming apparent that the true American spirit is aroused by the peril now menacing the government. No matter what arguments of loom may be advanced to tempt us to rule the Philippines by force against their will, we have been too long taught as Americans that "constitutional governments derive their just powers from the consent of the governed" to sanction a sin so surely destructive of our national integrity. No matter what selfish reasons may be urged for the continued denial to the Porto Ricans of their rights under the constitution—a denial based upon the theory that the American flag waves over that island as a colony, not as an integral part of the United States—we know as Americans that "a republic can have no colonies." And as for the remarkable necessitated feat of attempting to exist as a republic on the American mainland while ruling an empire in the Philippines and Porto Rico, every American knows in his soul that this government "can not exist half republic and half empire."

It is for these good and valid American reasons that the Democrats, the populists, the silver Republicans and the anti-imperialist league are now drawing close together for the great fight of 1900. It is life and death fight. The existence of the government is dependent upon its issue. The slogan of the united Americans, the plotters for empire is "Save the republic."—St. Louis Republic.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, etc. Hall's Family Pills are the best.

Col. Tom Turner Dead.

A special from Mr. Sterling, dated September 11th, says: Ex-Congressman Thomas Turner died today at noon of general debility after a lingering illness. His death had been hourly expected for several weeks, but the distinguished lawyer and statesman clung to life with that tenacity that has been characteristic of his whole career. During his last moments he was surrounded by his entire family with the exception of his son, Thomas, who is sick of yellow fever in Havana, Cuba. The death of Col. Turner has caused great sorrow in this city, where he was loved by all who knew him.

I feel like sounding its praises throughout the Universe." Dr. King's New Discovery is guaranteed to cure all troubles of the Throat, Chest or Lungs. Price 50c. and \$1. Trial bottles free at T. E. Many may dare to do in crowds what they would not dare to do as individuals, but the moral character of an act is not determined by the number of those who join it. Force can defend a right, but force has never yet created a right.—W. J. Bryan.

Shirt Waist For Men.

For several years the women have had a monopoly of the shirt waist business, but they have been found so nice, so cool and so comfortable, that the men have concluded to wear them, too. While it is true the style has not struck hard-core as yet, there is no doubt that by next summer they will be worn by all who want to keep cool. The men of New York are wearing them and it will take only a few months for the style to get here. Of course it would look just a little odd to see this innovation, but it is coming. By next summer we will all be wearing them. We expect to see Judge Daugherty on the bench with his shirt waist, while the lawyers and clients will have on the same kind of garments. We are just a little anxious to know which one of our preachers will be the first to appear in his pulpit with the regulation shirt waist on.

It is so hot we are ready for our shirt waist now. While we hesitate to exist the first one in the town to try the innovation, yet we stand ready with our paper to defend the innovator and also pledge him our word that if he is not mobbed, we shall follow in his footsteps just as soon as we can find one of the garments and are able to raise the price of the thing. We love the shirt-waist woman and we shall respect the shirt waist man.—Nelson Record.

Bismarck's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. Only 50 cents at T. E. Paul's drug store.

In Japan every able-bodied man is a soldier, and even the children know the use of arms. Military drill is a part of the regular education in the schools throughout the empire. School boys dress in a military uniform out on the pattern of cadet uniforms in Europe and America. Their instructors are regular army officers, veterans of the war with China, and some of them of the Satsuma rebellion of 1877. This has its effect on the youth mind, ever prone to hero worship, and treble so in Japan.

A petition has been circulated in Campbellsville which will be filed at Frankfort asking for the release from the penitentiary of Henry Barefield, the negro who killed Henry Becker, another negro, in the colored portion of Campbellsville last year, and who was sentenced to two years in the State penitentiary at the January term of the circuit court. Many colored people here hope if he is released, he will not return to Campbellsville. They don't sleep well when Henry is in the neighborhood.—Times-Journal.

Owen Banks, a very popular young gentleman of Cane Valley, has sold his interest in the store at that place and accepted a position with the Boot and Shoe House Vogel Bros & Co., Louisville.
